UZ-UCSF Collaborative Research Programme is seeking suitably trained, competent and qualified applicants to fill the posts of Medical Officer in the Clinical Trial Unit (CTU).

Qualifications & Experience:

- **MBChB** or equivalent.
- A minimum of three years post-internship experience as a Clinician in the public health service.
- Clinical experience in a research-related field would be an added advantage.
- Registration with the Medical and Dental Practitioners Council of Zimbabwe (MDPCZ) is an absolute requirement.
- Should be in possession of a current open practising certificate issued by the MDPCZ.

Responsibilities.

The Medical Officer will report directly to the Project Director and will work closely with the CRS/Project Coordinators. The overall responsibilities of the Medical Officers are to:

- Ensure continuity of medical care to a cohort of study participants in close liaison with the Project Director, CRS Coordinators, Research Nurses and Counsellors.
- Document in detail all adverse experiences (AEs) of study participants as required by the protocol.
- Promptly report all Serious and Expedited Adverse Events (SAEs and EAEs) to the Project Director and to assist in the completion of Adverse Experience forms, Serious and Expedited Adverse Event forms in a timely fashion as required by the protocol.
- Take part in protocol trainings and refresher courses.
- Work with the Project Director, Investigator of Record and Principal Investigator in preparing manuscripts for presentation and publication.
- Assist in setting the research agenda for ancillary studies performed by the study team.

Interested candidates should forward applications and detailed Curriculum Vitae to below mentioned address. The closing date for applications is Sunday 21 May, 2017 to:-
